

I strongly disagree with Sinclair Broadcasting's decision to air an inflammatory and slanderous documentary about Senator Kerry days before the election, forcing their stations to air the piece.

Sinclair utilizes the public airways free of charge, and is obligated by law to serve the public interest. If they abuse this privilege, then they should lose their broadcast license. As a long-time amateur radio operator, I take these principles to be very important, and I am repulsed by Sinclair's abuse of their privileges. Thank you.
